Description

Also included in the kit
The RF 24-105mm F4-7.1 IS STM lens pairs perfectly with the EOS R8 Mark II. It’s a lightweight, versatile zoom lens that's ideal for travel, landscapes, portraits and everyday moments. Its flexible 24-105mm range adapts to a wide variety of subjects. And the 5-stop Optical Image Stabilisation helps keep handheld photos and videos sharp and steady.

Dream camera, built for the real world
Whether you're shooting landscapes, portraits or action, this lightweight Canon camera's cutting-edge technology makes it easy to achieve outstanding results wherever your journey takes you.

24.2MP full-frame sensor
Discover the full-frame advantage: more detail, wider dynamic range and greater creative control.

Strong in-body image stabilisation
Shoot more assuredly with up to 7.5-stops1 of stabilisation for steady handheld photos and video.

40 frames per second2
Seize every opportunity with pre-continuous shooting and a bigger buffer that handles up to 73 RAW file in a single burst.

Dual Pixel CMOS AF II
Get sharper images more consistently thanks to improved intelligent subject detection and persistent tracking autofocus.

Register People Priority
Keep the people who matter most in focus, even in a crowd, by saving their faces to the camera or memory card

Flexible colour tools
Explore new looks using Canon Picture Styles and Filmtone Colour Filters, plus cinematic Custom Picture settings for video.

Reliable connectivity
Fast, stable USB-C®, Wi-Fi® (2.4GHz / 5GHz)3 and Bluetooth® 5.3 – with automatic cloud backup for peace of mind.

4K 60p video
Bring stories to life in cinematic 4K, get creative with slow and fast motion, and explore advanced editing with Canon Log 3.
