Description
The 35mm F1.4 lens has always held a special place in the hearts of photographers. The Sigma 35mm F1.4 DG II | Art builds on the legacy of Sigma’s 35mm F1.4 Art line and sets a new benchmark with its unmatched optical performance.

The journey began in 2012 with the Sigma Sigma 35mm F1.4 DG HSM | Art, the very first lens in Sigma’s Art line. With unprecedented resolving power, the lens made a lasting impact on the photography world, redefining what an F1.4 lens could achieve—a milestone still celebrated today.

In 2021, the 35mm F1.4 DG DN | Art leveraged the advantage of a short flange-back design to significantly improve corner performance and push optical standards even further.

And now, the Sigma 35mm F1.4 DG II | Art stands at the pinnacle as the finest 35mm F1.4 in Sigma’s history. With class-leading optical performance, a refined, compact, and lightweight design, and high-speed AF driven by Dual HLA, this lens embodies years of Sigma’s technology and passion?once again setting a new benchmark in photography.

Angle of View Standard

Camera type Mirrorless

Lens Mount L-Mount, Sony E-mount

Sensor Size Full Frame

Construction 15 elements in 12 groups (2 SLD, 4 aspherical elements)

Angle of view L-Mount: 63.4°

Sony E-mount: 63.4°

Number of diaphragm blades 11 (rounded diaphragm)

Minimum aperture F16

Minimum focusing distance 28cm / 11.1in.

Maximum magnification ratio 1:5.4

Filter size ?67mm

Dimensions (diameter x length)

L-Mount: ?73.0mm x 94.0mm / ?2.9in. x 3.7in.

Sony E-mount: ?73.0mm x 96.0mm / ?2.9in. x 3.8in.

Weight

L-Mount: 530g / 18.7oz.

Sony E-mount: 525g / 18.5oz.
