

### Olympus Tough TG7

**DARE MORE** You know what's one of the toughest things to find these days? Freedom. And we don't mean just that stars and stripes kind of freedom, but that true, feel-it-in-your-bones, electrifying sense of being wholly unburdened and unbound, rid of any sense of duty to nothing but the moment. That - kind of freedom. And that freedom usually isn't a well-paved trail. It isn't mapped out perfectly, and it doesn't come in handy packages or with instructions. This kind of freedom takes a lot but leaves you wanting for more. Dare to try?
