Description

Ready For Everything
At 355g (0.78lb), FUJIFILM X-M5 is currently the lightest model in the X Series line-up of digital cameras and so small it fits in a jacket pocket. This makes it perfect to carry everywhere you go, ready to create high-quality content on a moment's notice.

Form and Function
The compact size of FUJIFILM X-M5 hasn't compromised its elegant styling. The symmetrically placed dials on the top plate enhance its beauty. It's unmistakably an X Series camera in both looks and performance.

Film Simulation mode Dial
Instantly access your own creative looks thanks to FUJIFILM X-M5 digital cameras unique Film Simulation mode dial. Offering up to 20 looks, X-M5's Film Simulation modes can be applied to photos and videos, giving you incredible flexibility for your output.

An Eye for Detail
Create content with depth, texture, and true-to-life color thanks to FUJIFILM X-M5's X-Trans CMOS 4 sensor and X-Processor 5 imaging

engine. Experience detail and quality that far exceeds the results from your Smartphone.

Never Miss a Moment
FUJIFILM X-M5 features the same built-in AI-driven subject detection autofocus as FUJIFILM X100VI and X-T50 mirrorless digital cameras. Along with Fujifilm's latest-generation image processor, this delivers incredible focus accuracy in nearly all lighting conditions, even if your subject is moving.

Subject Detection Autofocus
X-Processor 5 features subject detection autofocus that is built with deep-learning AI technology. In addition to providing incredible AF tracking and detection for human faces and eyes, FUJIFILM X-M5 can also automatically detect and track a broad range of subjects, including animals, birds, cars, motorcycles, bicycles, airplanes, trains, insects, and drones.

Latest AF Technology
FUJIFILM X-M5 is equipped with Fujifilm's latest predictive algorithm, recording subjects with highly accurate AF even in scenes requiring tracking of moving objects or in low-contrast environments. It tracks a wide range of subjects, including sports and animals, and subjects in motion.
