- removeable padded insert
- Waterproof Stormblock material
- Real full grain leather and brass fixings
- Grab handle, luggage strap and removeable strap
- 5-year manufacturers guarantee
- Made in England

Removable padded insert
The flexible padded insert is made from dense, fabric covered, 'closed cell' foam and provides impact protection on all sides, including the lid. Like the bag itself it is flexible front-to-back to allow it to fit slightly bigger gear than its dimensions suggest. ?
2x vertical dividers and 2x horizontal flap dividers are included and can be attached anywhere inside with Velcro.? It can also be removed to turn the bag from a camera bag to a casual messenger bag in seconds.

Back pocket with weatherproof zip
A weatherproof zipper on the back pocket helps give extra protection to travel documents and other important items held there, as well as providing handy access without needing to open the main compartment of the bag.

Front pockets
The front dump pockets are perfect for cables, film, spare batteries and those little bits and bobs you want to keep separate, whilst providing great extra storage space.? ?On the top-outside corner of each pocket is a pop-clip. Release this to expand the space available. Keep it closed

to form a perfect place to clip pens, pencils etc.

Removable shoulder sling
The Hadley Small Pro features a shoulder sling that can be adjusted longer or shorter to suit your height and shooting style.? It can also be completely and easily removed in seconds if you would prefer to carry the bag using only its top handle. ?It is made from strong shuttle woven polyester, top-grain leather and solid brass.?

Top handle
An easy carry top handle is reinforced with fibreglass and has leather on the underside to allow you to pick up and carry the bag with comfort, without using the shoulder sling.

Front straps
The leather front straps have the Quick Release System feature – just lift the top of the strap up-and-over the brass clogball for quick access to the main compartment.? ?The buckles allow you to fine tune the 'fit' of the front pockets. You don't need to use the buckle to open the bag.? ? The sculpted top flap helps prevent rain, snow or unwanted fingers getting into the main compartment. It is made of the same 3-layer waterproof fabric as the rest of the bag

Luggage trolley strap
Attach your camera bag safely to your suitcase when travelling through a busy airport or city.
