### Description

The 35mm F1.4 lens has always held a special place in the hearts of photographers. The Sigma 35mm F1.4 DG II | Art builds on the legacy of Sigma's 35mm F1.4 Art line and sets a new benchmark with its unmatched optical performance.

The journey began in 2012 with the Sigma Sigma 35mm F1.4 DG HSM | Art, the very first lens in Sigma's Art line. With unprecedented resolving power, the lens made a lasting impact on the photography world, redefining what an F1.4 lens could achieve—a milestone still celebrated today.

In 2021, the 35mm F1.4 DG DN | Art leveraged the advantage of a short flange-back design to significantly improve corner performance and push optical standards even further.

## Camera Lenses: Sigma 35mm f1.4 DG II Art

---

And now, the Sigma 35mm F1.4 DG II | Art stands at the pinnacle as the finest 35mm F1.4 in Sigma's history. With class-leading optical performance, a refined, compact, and lightweight design, and high-speed AF driven by Dual HLA, this lens embodies years of Sigma's technology and passion, once again setting a new benchmark in photography.

Angle of View Standard

Camera type Mirrorless

Lens Mount L-Mount, Sony E-mount
