Formatt Hitech Firecrest 100mm Holder Kit

For some time we have been researching what our customers really want and need in a holder system and have taken soundings form the many professional partners and featured artists whom we work with worldwide. We have been looking to develop a holder system which not only complements our existing modular range, but is also worthy of our prestigious FIRECREST brand.

Description

£156.91

The Firecrest 100mm Holder Kit comprises the following:

Firecrest 100mm holder with polariser control wheel
Rotating 82mm Adaptor Ring
82mm Firecrest Ultra-slim Circular Polariser
CPL rotates using unique geared system within holder
Two part anti-reflective soft-touch outer case
1 x Set of Solid End caps
1 x Set Vented End caps for use with graduated filters
67-82mm Step-up ring
72-82mm Step-up ring
77-82mm Step-up ring
Luxury pouch
Allen key

Features:

Revolutionary new top and bottom covers to almost completely eliminate light leakage when shooting long exposure, with interchangeable end caps for use with 100x100 filters or 100x125/150mm graduated filters.

Built in low-profile gasket.

Adaptors / step rings come with the system as standard for all sizes from 67-82mm, and step rings for smaller lenses can be purchased separately (for lens threads 46mm, 52, 58 & 62mm)

Integrated top of the range Firecrest 82mm multicoated polariser comes as standard within the system. A unique geared mechanism allows for easy rotation whilst installed. The polariser can also be removed within its ring/adaptor for use as a screw in

2 fixed filter slots which take 100mm filters

Extremely high quality lightweight aluminium design with extra oxidisation to reduce likelihood of scratching
