Description

Incredible Sound with Ease

You don't need to be an audio expert to get incredible sound. The VideoMic GO II does all the hard work for you. Featuring the same annular line tube technology as our VideoMic NTG and NTG5 microphones, it delivers rich, full-bodied audio that is perfect for a wide range of recording applications. It is a highly directional microphone, meaning it focuses on what you have it pointed at while reducing background noise, giving you crystal-clear, professional sound with ease.

The VideoMic GO II also comes with a "high-quality windshield for capturing clean recordings outdoors" and reducing plosives, plus a professional shockmount for superior absorption of handling noise.

Small but Mighty

Weighing in at just 89 grams, the VideoMic GO II is compact and lightweight enough to take with you wherever you go. Perfect for use with

compact cameras, mobile recording rigs, or on a desktop as a USB microphone for capturing high-quality audio anywhere.

As Simple as Plug and Go

The VideoMic GO II has no complicated controls or switches and requires no batteries to operate, so you can get recording in seconds. It connects seamlessly to cameras, computers, smartphones and tablets, giving you instant professional audio with minimal fuss – just pick it up, plug it in and go.

One Mic For All Your Devices

The VideoMic GO II is designed to suit the diverse needs of today's content creators, offering universal compatibility with all your devices*.

Use it with your camera in the field. Use it with your smartphone or tablet for crystal-clear recording on the go. Use it as a desktop USB mic for podcasting, gaming and livestreaming, or video calls. Incredible versatility for maximum creativity.

Additional cables required for connecting the VideoMic GO II to computers and mobile devices via USB – USB-C devices: SC16, SC17, SC18; iOS (Lightning) devices: SC15, SC19.
