

DJI Osmo Action Camera

Live the Action Whether you want to record your world from behind a lens or be the star of the show, Osmo Action's dual screens allow you to capture it all with the touch of a button. A vivid front screen lets you frame yourself effortlessly in any setting, while the back screen delivers a crystal-clear, hyper-responsive display. This durable, versatile action camera is jam-packed with advanced technology that lets you spend less time worrying about equipment and more time living the action.

Description

SALE PRICE, SAVE £50.00, NOW £279.00, PLUS SPARE BATTERY FREE, WORTH £19.00

FROM 1st of September until 23rd of September.

Made to Move

After years of providing advanced, reliable stabilization technology to filmmakers around the globe, DJI has gone one step further. RockSteady combines EIS with complex algorithms, delivering stable, shake-free footage no matter how heavy the action gets.

More Dynamic Detail with HDR Video

Dramatically enhance the dynamic range of your footage when recording with HDR video. This shooting mode delivers natural transitions between light and dark areas, capturing rich details that are often lost in environments with complex lighting.

Custom Mode

For simplified use and upgraded efficiency, Custom mode lets you store, list, and select frequently used shooting modes and exposure settings.

QS Button

The Quick Switch button ensures modes and settings are easily and quickly accessible. It has multiple capabilities including options that let you flip between the front and back screen, change modes, and select custom settings.

SnapShot

SnapShot means you'll never miss a moment of the action. Press the shutter button to power on and begin recording in under two seconds. Pressing the shutter button once when the camera is in sleep mode or powered off engages preset shooting modes.

11M Waterproof

Sporting a watertight seal and a hydrophobic coating on the back touchscreen, Osmo Action is waterproof at depths of up to 11 meters, making it the perfect underwater companion.

DJI Mimo App

The DJI Mimo app is filled with intuitive features and powerful editing tools, so you can get the most out of your Osmo Action. Story templates allow you to edit and share the exciting highlights of your life to social media instantly.

Dual Screens
