Description

Enjoy brilliant Full HD quality movies that automatically sound as good as they look – even in tricky low light - thanks to a host of powerful technologies like DIGIC DV 4.

Shoot dramatic-looking movies by flexibly switching between slow and fast motion while recording. Then get creative with Touch Decoration, Cinema-Look Filters and advanced Baby Mode.

Record comfortably for longer thanks to an ergonomic design and simple, touchscreen control. Simply point and shoot for great movies then share with ease via Wi-Fi with NFC.

Easily capture all the detail in distant objects using the huge 57x Advanced Zoom lens with Zoom Framing Assist, while an Intelligent Image Stabilizer keeps your footage steady.

Film for longer on a single charge – and be ready for that crucial moment - with a high-capacity battery; simultaneously record in maximum quality and easy-share files.
